

MIT 100 AUTOMATIC INFLATABLE PFD

Model: MD2016 03 / SKU: 062533615489

This front-entry automatic inflatable PFD offers streamlined comfort and safety for inshore marine adventures.

DESCRIPTION

Exclusive Membrane Inflatable Technology (MIT) and durable high-tenacity nylon face fabric provide a lightweight and flexible fit. The waist belt adjusts to accommodate outer layers, and large arm cutouts allow for full mobility. Designed to automatically inflate when submerged in water, it also includes a manual inflation cord should you choose to deploy it by hand. The simple 1-fold design makes re-packing a cinch when it comes time to recharge, and safety checks are easy with the inflator inspection window and access flap. When inflated, the MIT 100 Automatic Inflatable PFD provides 28 lbs of buoyancy and will turn most wearers face up.

FEATURES

- Automatically inflates upon water immersion
- Inflator inspection window and easy access flap
- 1-fold, easy to repack design
- High visibility contrasting fabric when inflated
