

Extreme Pac Boot

STYLE: 1700

Comfort Rating: -60°F to 10°F

The BOA® Fit System for a micro-adjustable fit that won't come loose

Anti-Slip RefrigiWear® outsole

You're not one to put your feet up on the job, even with long shifts in extreme conditions. Fight foot fatigue and frigid conditions while staying safe with the Extreme Pac Boot, comfort rated for temperatures as low as -60°F.

Our cold-weather work shoes have 9-inch waterproof nylon and leather uppers. These winter work boots fight fatigue with VitaComfort®, which absorbs the shock to your feet from walking and standing all day. The boots are also electrical-hazard compliant for added safety. Dial into comfort with the durable BOA® Fit System for a fast, effortless, snug fit all day, without removing your work gloves. Comes with 1 pair of 1700L liners.

The entire [Extreme Collection](#), now with head-to-toe protection, was designed for comfort, style, and the ultimate warmth. When the cold warns you to stay at home, take it to the Extreme.

**Non-slip soles for extra safety**

Soles designed for the toughest environments to keep you from slipping.

**100% Waterproof Protection**

Certified 100% waterproof means you can kick the snow, rain or any kind of moisture to the curb without getting cold & wet.

**VitaComfort System for All-Day Comfort**

Absorbs impacts & wicks away moisture to keep you on your feet.

**DIAL IN THE PERFECT FIT**

**BOA® System means you get the best fit that lasts the whole shift – all with the twist of a knob.**

**Easily tighten or loosen fit without removing your gloves.**

## WARMTH THAT LASTS

Comes with one pair of ultra-warm liners for extra heat-trapping power.

## MORE COMFORT ON TOUGH JOBS

Fights foot fatigue during the day.  
Easy kick off when the day's done.

### Protection from the Cold and Floor Hazards

You're not one to put your feet up on the job, even with long shifts in extreme conditions. Fight foot fatigue and the cold while staying safe with the RefrigiWear Extreme Pac Boot. Don't get distracted by cold, hurting feet or poor fit.

The anti-slip RefrigiWear sole is designed specifically not to crack or breakdown due to contact with frozen ground. Our Indurasafe ratings help you see where the boots rank for durability, warmth, and anti-slip protection.

### The Perfect Fit with Boa

These boots feature the Boa® System for lacing so you get a snug fit all day. The Boa® System gives you the best fit that lasts your whole shift all with the twist of a knob. Easily tighten and loosen fit without removing your gloves so you can concentrate on work, not discomfort.

Push the knob in and rotate clockwise to tighten laces. Pull out the knob and gently pull down tongue to loosen laces.

### Comfortable and Durable

Our VitaComfort system keeps your feet comfortable and dry by absorbing more shock and wicking away moisture. Comes with 1 pair of 1700L liners.
