

LINE GUARDS - POLYETHYLENE

- Light weight - 1/3 the weight of similar rubber hoses
- Different lengths are available
- Snap together feature with male and female connecting ends
- High visibility yellow color
- Easy to clean - smooth polyethylene surface
- Features a larger I.D. than traditional rubber hoses (1.77 inches compared to 1.25 inches)
- Excellent UV properties
- This product has a black inner layer and yellow outer layer of material, if either layer should wear in such a manner that the color from the opposite layer is visible, the product must be taken out of service.
- Brush contact only
