

Ergo Goatskin Glove

Style: 0353

Smash through your to-do list, not your fingers. The Ergo Goatskin Glove features flexible goat grain leather armored with impact protection pads on the fingers and across the knuckles.

These leather work gloves also deliver triple-layer warmth against temperatures as low as -25°F with fiberfill and foam insulation and a soft tricot lining to protect against the harshest conditions. These insulated work gloves also come with a pre-curved ergonomic design and a durable reinforced palm to prevent hand fatigue.

When the conditions are tough, you need tougher gloves. Reach for the Ergo Goatskin Glove and get it done.
