3M™ Protecta® P200 Safety Harness is designed to help provide industrial workers with optimal comfort and support, including features such as a web pSRL adapter for a fast, simple attachment of personal self-retracting lifelines (pSRLs). In addition, each harness features built-in lanyard keepers to reduce the potential for accidental entanglements, ensuring workers with reliable fall protection. 3M™ Protecta® P200 Safety Harness is available in a wide range of vest-style configurations to help keep professionals safe and secure while on the job.

3M™ Protecta® P200 Safety Harness features moisture-wicking, breathable, back-padding material to help keep workers comfortable in even the harshest environments. It is highly adjustable to fit various body types with corrosion-resistant back and side D-rings and tongue buckle leg straps. The durable polyester web construction and comfort padding on the hip, shoulder, and back helps make this harness lightweight yet comfortable for longer wear. 3M™ Protecta® P200 Safety Harness is designed to support the worker's body weight, clothing, tools, and other accessories while on the job. 3M™ Protecta® P200 Safety Harness features an ergonomic design, impact indicators, serial numbers, steel hardware, and different options for specialized needs and budgets.
